

Experienced Veterinarian Ou Kaapse Vet (full-/part-time)

- Strive for clinical excellence alongside experienced, committed team members.
- Be challenged in a good way and continue learning in a collaborative & enabling environment.
- A manageable case-load and lifestyle friendly roster means you can enjoy all the Cape has to offer.

Come join the TAH family at Ou Kaapse Vet (OKV) in the Southern Suburbs and achieve excellence in what you do while developing personally and professionally in a highly supportive, growing network of vets and practices.

ABOUT US

Ou Kaapse Vet is an amazing small animal hospital and joined the TAH family in 2023.

The experienced and committed team have found a perfect home in our progressive, employee-centered network where we firmly believe that happy people = healthy pets. This means we spend a lot of energy developing teams of highly skilled, enthusiastic professionals, and provide them with the facilities, equipment and support they need to do their best work.

OKV is spacious and looks fantastic after an extensive renovation, and has all the diagnostics and toys you need in a practice whose clients want workups and comprehensive treatments. This is not an inject and inspect practice!

ABOUT YOU

The full- or part-time position is available immediately and will include surgery and more complex dental procedures. It would therefore suit someone who already has some experience and confidence in these areas, but you do not have to be an expert. We love helping vets develop and at TAH you are never alone. There are always other experienced vets available and because our practices are connected digitally, vets anywhere can review blood and imaging results real time and help you through difficult situations. We are also passionate about developing the practice leaders and managers of the future, so if running a practice and leading a team is an interest, then TAH is the place for you.

Positivity, professionalism, being a team player and a desire to learn are more important than experience. We can teach you a lot of what you need to know.
